Abstract: The IYA2009 brought an unprecedented opportunity for public outreach cooperation between the five research astronomy institutes in Garching and Munich. Research partners in the Excellence Cluster Universe, ESO and the Max Planck Institutes for Physics, Astrophysics and Extraterrestrial Physics (MPP, MPA and MPE) joined forces to prepare an exhibition at the Deutsches Museum – titled “Evolution of the Universe”, which opened on 8 December 2009. A journey in time through our cosmos, the exhibition presents up-to-date insights using fascinating exhibits and hands-on demonstrations. This talk will present impressions and results of the project.
